Dear FCC:

I am writing you this letter to URGE you to REJECT the NAB'S Petition 04-160. I am a very happy subscriber of XM satalite radio and glad pay for the service that they render.. Please do not let the big lobbieist try to block the growth of technology, If you do it would be like not allowoing cable tv companies to air the same info on events that local channels do. All of this should be protected by the constitution. We pay for their service and they provide it, let us be the ones to decide who we have to listen to. The quality to local radio stations, nationwide have gone down so much over the last few years, it is all talk and practical jokes and nonsense, and to me that is unacceptable. I pay for XM so I get the music and content I want always clear and available 24 hours a day.

Please do the right thing and REJECT Petition 04-160

Thanks

Scott Rowland
